

Talluri Subhash

Full Stack Developer — DSA Enthusiast — B.Tech IT Student

+91 9032615075 | subhashtalluri68@gmail.com | linkedin.com/in/tallurisubhash | github.com/Subhash-2005

EDUCATION

Gayatri Vidya Parishad College of Engineering (Autonomous)

B.Tech in Information Technology — CGPA: 8.5

Visakhapatnam, India

Aug 2022 – May 2026

Sasi Junior College

Intermediate (MPC)

Nidadavole, India

Apr 2020 – May 2022

TECHNICAL SKILLS

Languages: C++, C, JavaScript, SQL

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Coursework: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks

WORK EXPERIENCE

Android Developer Virtual Internship

Apr 2025 – Jun 2025

- Learned the basics of Android app development using Java and Android Studio.
- Developed a Resume Builder App that allows users to enter personal and academic details and generates a professional PDF resume.
- Designed a user-friendly interface with input fields and buttons using XML layouts.
- Worked with Android activity lifecycle and used local storage to manage data.

Data Science Virtual Internship

Apr 2024 – Jun 2024

- Gained practical understanding of basic machine learning concepts like supervised learning, data preprocessing, and model evaluation.
- Worked on a guided mini-project to predict loan default using logistic regression and cleaned real-world datasets using Python (Pandas, NumPy).
- Used Python and Pandas to work with real-world datasets like customer information and loan status.
- Understood how machine learning can help businesses make better decisions using data.

PROJECTS

Learn Hub – Online Learning Platform

Jan 2025 – Present

- Built a scalable full-stack e-learning web application using HTML, CSS, JavaScript (Frontend) and Node.js, Express.js, MongoDB (Backend).
- Developed RESTful APIs for user registration, login, and course management using Express.js and Mongoose.
- Implemented secure authentication and authorization using JWT for token-based access and bcrypt for password hashing.
- Planning enhancements like role-based dashboards, course progress tracking, quizzes, and certification features.

Quiz App – React/Vite Single-Page Application

Jun 2024 – Oct 2024

- Developed an interactive quiz platform using React.js with a Node.js + Express.js backend and MongoDB.
- Implemented a countdown timer, hint feature, and persistent high-score tracking using localStorage and Firebase.
- Integrated Firebase Authentication for secure user login and quiz participation.
- Planned Features: Role-based access with admin-created quizzes, unique join codes for students, and an admin dashboard for quiz creation, question management, and analytics.

ACHIEVEMENTS

- Solved 500+ DSA Problems on LeetCode, GFG, and CodeChef.
- Regular participant in LeetCode Weekly Contests and CodeChef Long Challenges.
- Strong grasp on Hash maps, Two Pointers, binary search, and stack-based problems.
- Achieved a peak LeetCode rating of 1500+.
